IN THE PRESS — NEW YORK POST · DECEMBER 30, 2024

“Meet the content creators harnessing AI — and how they use it to make thousands per month”

The New York Post profiled my strategy of using AI to advertise AI — generating branded images and video content and distributing it across **40+ social platforms** — reporting the method generates **\$50,000–\$60,000 per month** in commission income. National press coverage means your brand rides on a creator sponsors can point to.

All figures from live dashboards (HighLevel Affiliate Portal, PartnerStack, Stripe) as of July 2026. Screen-share verification available on request. Past performance shown as evidence of audience quality, not a guarantee of campaign results.

⚡ PERFORMANCE DEAL — If your product genuinely converts, I'll cut the flat fee in exchange for rev-share on tracked sales, and you get my hardest push: I only win when you win. This is how I produced the six-figure case studies on page 3. Serious offers only.

1

Send your product, offer & chosen package

2

Stripe invoice — 50% locks your slot, 50% on delivery

3

Live within 7–14 business days of your brief

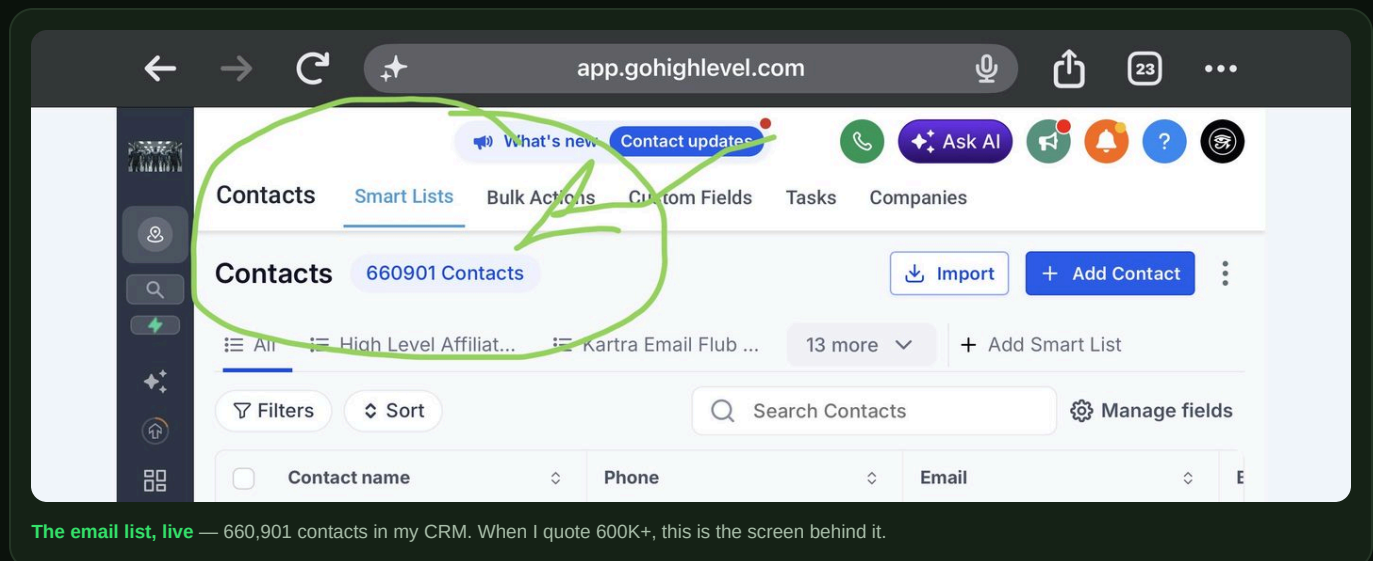

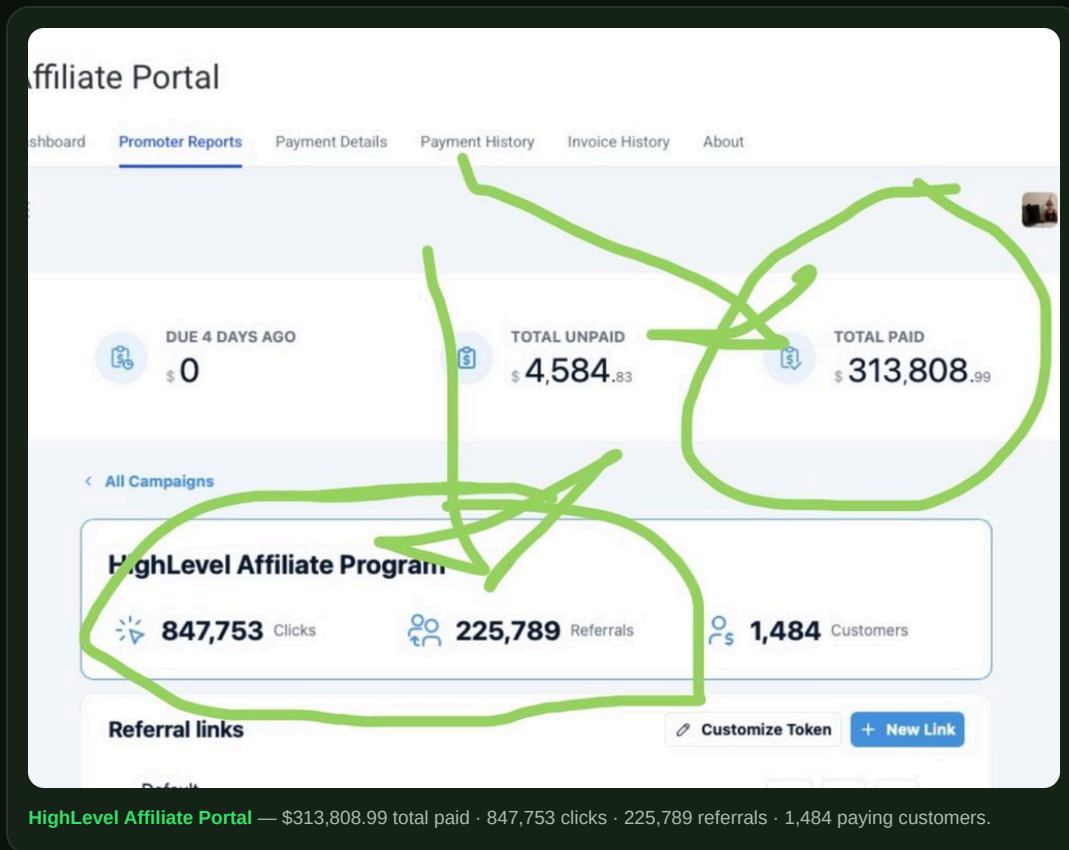

- **2 sponsors max per month** — every campaign gets my audience's full attention. Slots go to whoever locks first.
- One revision round included on all content.
- I keep final creative control — my voice is why the audience converts.
- All sponsorships disclosed per FTC guidelines.
- I personally vet every product before accepting. I built this audience on trust and only promote what I'd use myself.
- Sponsored content remains live a minimum of 12 months (YouTube & blog).
